

SCHOOL

INITIATIVE

2019 – 2020
DANE COUNTY AREA
SCHOOL DISTRICTS

Madison, Wisconsin

Their Struggle

When there is no reason left for a young adult to consider school as a place of education and opportunity, it is hard for them to identify themselves as a student who is part of a school culture and environment.

Our Objective

Our objective is to serve high school students who attend school and help them re-identify with their reasons to pursue their education.

What We Plan To

Listen to Their Actions

Listen Through Interactions

Individual Student Assessment

- Grade Report History and Test Scores
- Truancy and Attendance Records
- Perception of Social Support
- Juvenile Offenses

Individual Interviews

- Listen and Seek to Understand Who They Are
- Discuss and Establish Goals
- Build Positive Mentor & Mentee Relationships

Building a Success Team

No one student will go at it alone, and the same is true for our members. Our teams are composed of the following:

- One-to-One Mentor
- Educational/Career Coach
- Family/Community Liaison
- Psychological Counseling (if needed)

STUDENT DRIVEN

A student-driven success plan will be developed based on the findings of the assessment with the participation of the student, parents/guardians, school officials and members of the Success Team.
